OVER

FLU

GET VACCINATED IF YOU LIVE WITH A CHRONIC ILLNESS

like diabetes, an immune disorder or a cardiovascular, respiratory or kidney disease.

INFLUENZA VACCINE

Available free of charge to:

- ✓ Persons 60 years and older
- ✓ Healthy children 6 to 23 months of age, inclusive
- ✓ Children and teens (under age 18) on long-term acetylsalicylic acid (ASA) treatment
- ✓ Persons with a condition requiring regular medical follow-up or hospital care, such as heart disease, lung disease, respiratory problems or chronic health conditions
- ✓ Pregnant women with any of the above conditions (at any stage of pregnancy)
- ✓ Healthy pregnant women in their 2nd or 3rd trimester
- ✓ Persons likely to transmit influenza to people with a high risk of complications, such as health care workers, day care workers and people who live with or care for at-risk persons or children under 6 months of age

PNEUMOCOCCAL VACCINE

Available free of charge to:

Pneumococcal vaccine 23 (Pneu-P-23) is available for:

- ✓ Persons 65 years and older
- ✓ Persons 2 to 64 years of age at high risk of pneumococcal infection, such as persons with a suppressed immune system, chronic kidney failure, asplenia or a chronic condition or disease

For a **schedule of all immunization clinics** in the Outaouais region, please visit our **website** at www.santeoutaouais.qc.ca/en/home or call the **toll-free flu info line (Info-Grippe)** at **1-844-351-6277**
